

PARTICIPATION FEE WORKSHEET - USTs

This worksheet will help you calculate how much participation fee is needed to insure your USTs. Participation Fees are paid annually, on a "per tank" basis. If for some reason your insurance application is rejected, your participation fee will be refunded in full.

CATEGORY ONE:

\$100 per tank

To qualify, your tank and piping must be double-walled, you must have spill and overfill protection devices, and your cathodic protection system, if any, must have been adequately tested.

CATEGORY TWO:

\$125 per tank

To qualify, your complete tank and piping system must have been newly installed, with the following: corrosion protection on both the tank and piping, spill protection and overfill protection OR you must have upgraded your tanks by adding all of the following: corrosion protection to both tank and piping, spill protection and overfill protection. In addition, your cathodic protection system, if any, must have been adequately tested.

ONE-TIME \$100 NEW TANK FEE:

If you have not yet paid the one-time, \$100 per tank fee, you also must pay it now in order to receive insurance coverage.

.....

Calculate your participation fees:

	Tanks in Category One x \$100	=	
	Tanks in Category Two x \$125	=	
	Total Annual Participation fees	=	

Calculate your one-time \$100 fee:

	Tanks subject to one-time fee x \$100	=	
	Total Amount Enclosed	=
