RBCA Changes

Proposed changes to MDNR's rules for tank site cleanups were published in the *Missouri Register* at <http://www.sos.mo.gov/adrules/moreg/current/v38n14/v38n14.asp>

You are urged to review these – *and* the accompanying changes to the Tanks RBCA Guidance Document at <http://www.dnr.missouri.gov/env/hwp/2013-tanks-rbca.htm>

Comments are due by August 22.

Drilling Bids

The PSTIF is asking that cost estimates for drilling, installation of monitoring wells, and/or plugging of monitoring wells be presented on a "per lineal foot" basis. Other costs associated with the job, if any, may be in whatever format you prefer.

Thanks!

Boring Logs

Speaking of drilling . . . Did you know the detailed boring logs you prepare for your reports can be attached to the Well Certification Forms, instead of completing the less-detailed version on the form itself?

QUESTIONS?

For questions about these or other PSTIF-related issues, call 800-765-2765 or 573-761-4060, or email us at pstif@sprintmail.com

Visit our web site at www.pstif.org

CONTACT

And if your driller prepares the Well Certification Forms, your signature as "primary contractor" is *not* required?

The DNR's Wellhead Protection Section says so!

FROG in the Field?

The PSTIF recently learned of a portable GC that measures petroleum constituents in the field . . . Called "FROG," it is reportedly capable of separating and quantifying BTEX. Here's a weblink: <http://www.defiant-tech.com/frog-4000.php>

We'd like to hear from consultants who have experience using it . . . ?
