## LNAPL Training Coming to KC!

One of the premier training courses in the nation for consultants who deal with free product at petroleum sites will be offered in Kansas City, Missouri on April 1-2, 2014. Offered by the Interstate Technology and Regulatory Council, (ITRC), the two-day course features internationally-recognized instructors and will teach you to:

- Develop and apply a Site Conceptual Model involving LNAPL,
- Understand and assess subsurface LNAPL behavior,
- Develop and justify LNAPL remedial objectives,
- Select appropriate remedial technologies, and
- Use ITRC's science-based guidance to demonstrate when closure of a file is warranted.

PSTIF staff and MDNR's Tanks Section staff will attend. Hope to see you there too!

Details: <https://www.regonline.com/builder/site/default.aspx?EventID=1339420>

## Software Available for Revised RBCA Guidance

MDNR's new RBCA rules and guidance will be effective on

### QUESTIONS?

For questions about these or other PSTIF-related issues, call 800-765-2765 or 573-761-4060, or email us at [pstif@sprintmail.com](mailto:pstif@sprintmail.com)

Visit our web site at [www.pstif.org](http://www.pstif.org)

### CONTACT

February 28, 2014. Are you ready?

Remember: Gone are the "soil types" from Tier 1 Risk Assessments. This means you will need to calculate Tier 2 site-specific target levels more often.

If you need software to calculate Tier 2 SSTLs for Missouri tank sites, here is one source you may wish to consider:

## Accelerating Cleanups

Be aware! The MDNR and PSTIF have developed a plan for accelerating tank site cleanups in Missouri. Among other things, it includes more regular and prompt follow-up if a consultant fails to meet the deadlines in DNR's letters, better coordination between the two state agencies, and a means for resolving "stalemates" when parties differ on a course of action.

We look forward to working *with* you, your clients, and MDNR to reduce Missouri's "backlog" of LUST site cleanups.
