UST Closures

Your clients will appreciate it – and will be glad they hired such a knowledgeable consultant – if your UST Closure reports contain all the elements DNR wants included. And, since we typically don't reimburse costs to provide information missing from the original report, you'll avoid having to prepare an addendum at your cost. Here's a checklist of what the report should contain:

<http://dnr.mo.gov/pubs/pub2218.htm>

Speaking of UST closures, be aware an increase in DNR's hazardous waste generator fees will become effective on March 20, 2020. The new fees can be found on page 215 of this document:
